

Curriculum Vitae

Dr Emma Reynolds

Consultant Clinical Neuropsychologist

DClinPsy., PgDip., C. Psychol., AFBPsS

Correspondence:

Expert in Mind Ltd, Astec House, Sedlescombe Road South, St Leonards on Sea,

East Sussex, TN38 0TA

T: 01424 444130 F: 01424 234625 E-mail: office@expertinmind.co.uk

Areas of Expertise (Adults and Older Adults)

I conduct neuropsychological assessments of cognitive and emotional functioning by clinical interview, psychometric testing and review of records. I provide independent reports for solicitors' firms and agencies and receive instructions from claimants (75%) and defendants (25%). I have expertise in assessment of:

- Acquired brain injury (e.g. following road traffic accidents or assaults)
- Stroke
- **Epilepsy**
- Alcohol and drug abuse
- Dementia
- Anoxia
- Neuropsychiatric conditions
- Mental capacity and fitness to plead assessments

2003-2006	Clinical Psychologist in Training
2002	Assistant Psychologist, Neuropsychology Service for Older Adults, Ealing
	Hospital

Summary

I am a Consultant Clinical Neuropsychologist and have been employed by the NHS since 2002. I have extensive experience of working with individuals who have psychological and neurological conditions.

In my NHS role, I am responsible for managing and developing neuropsychology services for individuals with acquired brain injury for West London Mental Health NHS Trust. I provide clinical supervision and training for a team of clinical psychologists working in rehabilitation services across London. I regularly carry out neuropsychological assessments for patients with traumatic brain injury referred by the Multidisciplinary Traumatic Brain Injury Clinic, based at St Mary's Hospital. I also carry out assessments with patients who have neurological conditions such as a brain tumour, brain infection, neuro-degenerative disorder or epilepsy, referred by the West London Neuroscience Centre, at Charing Cross Hospital.

In my private practice, I am the Clinical Director of the Neuro Psychology Clinic based in Harley Street, London. This clinic provides expert neuropsychological assessment, rehabilitation and medico-legal services.

I completed my undergraduate psychology degree at University College London and my Doctorate in Clinical Psychology at Royal Holloway, University of London. I then undertook a post-graduate diploma in clinical neuropsychology at the University of Glasgow and was awarded a Distinction. Following this, I obtained the Qualification in Clinical Neuropsychology (QiCN), which is viewed as the gold standard qualification for clinical neuropsychology within the UK. I was then offered a place on the Specialist Register in Clinical Neuropsychology (SRCN), which is regulated by the British Psychological Society.

I have completed the Cardiff University Law School Bond Solon Civil Expert Certificate (CUBS). This university-accredited expert witness qualification involved demonstrating core competencies in medico-legal report writing, courtroom skills and cross-examination.
